Mahboob Lessan Pezeshki MD

Nephrology research center

TUMS

IgA Nephropaty

- **G-DIgA**
- **Collabation among Patients
Physicians and pharmacological
Industry**

Life Style Modifications

- **Smoking Cessation**
- **Healthy weight and regular exercise**

Prognosis of IGA nephropathy

- **Normal blood pressure**
- **Proteinuria <1 g/24hour**

Supportive pharmacologic therapy

- **Sodium glucose transporter 2 inhibitor therapy**
- **timing of SGL2 inhibitor has not yet determined**

Level supportive pharmacology therapy

➤ **Endothelin reseptor entagonist**

Immunosuppressive therapy corticosteroid

➤ **Cyclophosphamide**

➤ **MMF**

Consideration and challenges

➤ **Novel imono supression**
